STRATEGIC REPORT

The directors present their strategic report of the Company for the year ended 31 December 2024.

BUSINESS REVIEW

The primary function of Alpine Racing Limited (the “Company”) is the operation of Alpine Formula One Team based in Enstone, Oxfordshire, United Kingdom. The Company carries out its activities through its annual participation in the FIA Formula One World Championship.

The team endured a tough start to the 2024 season with weakened on-track performance. Following performance upgrades across the year and changes to senior management, the team had a strong second half of the season with a double podium finish at the São Paulo Grand Prix and ended the year by consolidating 6th place in the Constructors’ Championship (2023: 6th).

The Company announced new appointments to the senior management team at Enstone in 2024, with Oliver Oakes joining as Team Principal and David Sanchez also coming on board as Executive Technical Director. Flavio Briatore was also appointed as Executive Advisor to the Renault Group CEO.

The Company continues to be supported by Renault Group in its Formula One racing activities, along with the support of Forest Intermediate Holdings who purchased a 24% stake in late 2023.

Also in 2024, the team welcomed new commercial partners including H. Moser & Cie., Businessolver, JAAQ, Infinox, Apecoin, and Modo Casino, as well as renewals with Shamir, Banco BRB, and The Venetian Resort Las Vegas.

BUSINESS ENVIRONMENT

Turnover for the year, comprising mainly of sponsorship income and prize money, was £238.5 million (2023: £250.0 million) and the loss after taxation for the financial year was £14.6 million (2023: £7.8 million profit).

The weakened on-track performance in 2023 versus 2022 negatively impacted prize money by 12.9%. Sponsorship and merchandising revenues remained broadly consistent.

While the Company has maintained a disciplined approach to cost control, continued inflationary pressures alongside organisational restructure costs, changes in government R&D credits and additional development expenditure ahead of future regulation changes, have led to a rise in operating costs of 7.9%. Combined with the reduced prize money, this has resulted in an operating loss of £10.2 million (2023: £18.1m operating profit).

Fixed asset investment continues to be healthy, totalling £30.5m for the year (excluding Right of Use assets relating to leases of £7.8 million).

SECTION 172 STATEMENT

Engaging with stakeholders

Our stakeholders are key to the overall success of the Company and it is essential for us to have an effective engagement strategy in place to build positive stakeholder relationships and deliver long term success.

The Company is part of the Renault Group, the governance framework of the Group delegates authority for local decision-making to the local entity up to defined levels of cost and impact which allows senior management to take decisions. Decisions are made with a long-term view in mind and with the highest standards of conduct in line with Group policies.

Shareholders

We make use of the guidance of our ultimate shareholder, Renault S.A. and our investor Forest Intermediate Holdings, and their opinions are important to us. We have an open dialogue with our shareholders through regular meetings and reporting to the Group Board. Our financial results are consolidated monthly. Discussions cover a wide range of topics including financial performance, strategy, outlook, governance, and ethical practices. We also hold local Board meetings, covering similar topics, to ensure the interests of all shareholders are considered. From September 2023 Forest Intermediate Holdings UK Ltd has held a minority share in the Company (previously fully owned by Grigny (UK) Limited).

STRATEGIC REPORT**SECTION 172 STATEMENT (CONTINUED)****Employees**

Our people are critical to our team's success. We prioritise regular communication with employees, encouraging two-way feedback through staff briefings and company updates. Our established Internal Communications function ensures the effective dissemination of information and management of our company intranet.

Over the past 12 months, we have implemented an HR business partnering model across the team. This model provides employees and managers with guidance and support in people-related activities. We have several established people processes, such as annual reviews and talent mapping, to drive employee development and enhance performance feedback.

In 2025, we have integrated the annual salary review with our performance process. This ensures that performance is appropriately rewarded, with strong links to behaviours and Company Values.

Customers

Our ambition is to deliver best in class sports marketing assets to enable our partners to tell relevant, engaging and informative marketing campaigns that positively engage with their desired audience in F1. We spend a lot of time with them to understand their needs and listen to how we can improve our service for them. We use this knowledge to inform our decision making, for example, tailoring rights packages to suit our partners expectations, whilst providing some flexibility to enable them to maximise the impact of their marketing campaigns.

Suppliers

We strive for respectful relationships with all of our suppliers where our engagement is mutually beneficial and therefore fosters a healthy and long-term approach.

We have various ways to engage depending on the service or product required. By building strong, healthy and ethical relationships we believe they will be best placed to deliver our demands which can be very challenging in peak periods of our year. Regular reviews, constructive mutual feedback and data collection are some of the ways in which we measure our collective performance. Our key areas of focus are innovation, quality, speed of delivery and sustainability. As a Formula 1 Team the vital part our suppliers play in our short and long term success is recognised at every level of our organisation and we celebrate our achievements together.

Communities

Our company remains steadfast in its commitment to sustainability and community engagement, echoing Groupe Renault's strategic vision and aligning with Formula 1® Racing's sustainability plans to 2030.

We prioritise tangible engagement with our local authorities and communities, recognising them as vital stakeholders in our journey towards continuous improvement, as demonstrated by our commitment to the ISO 14001 standard. Looking forward to 2025 and beyond, we aim to continue engaging with local communities including schools and charities to support ESG initiatives. Internally, pride in our surroundings has been revitalised over the course of the year, ensuring the local ecosystems are maintained so they can thrive amidst our operational activities.

Waste management remains a core focus for Alpine Racing Limited, ensuring the safe disposal of waste materials and improving waste separation. This promotes efficiency in our waste management practices and enhances recycling efforts. In 2024, freight weight saving projects were launched to reduce the associated carbon footprint of our logistics.

We have committed to a redefined ESG strategy which will be implemented in 2025, further promoting community engagement and sustainability. This will ensure we can continue achieving measurable progress and promote alignment across the organisation, implementing sustainable solutions and fostering a sustainable culture.

STRATEGIC REPORT**SECTION 172 STATEMENT (CONTINUED)****Government and regulators**

The FIA F1 World Championship is run under the auspices of the Federation Internationale de l'Automobile, motor racing's international governing body. As a competitor in the Championship, we are bound by the regulations published by the FIA including the Cost Cap, which limits how much teams can spend on developing and building their cars over course of a given calendar year. The FIA has structures in place that allows competitors to consult and participate in the shaping of some of the sports regulations. Due to the niche nature of our business, there is limited need for consultation or interactions with any other regulators. Compliance with laws and regulations as well as health and safety is of course paramount to our business.

PRINCIPAL RISKS AND UNCERTAINTIES

The directors are of the opinion that a thorough risk management process is adopted through regular financial review. The risks and uncertainties facing the Company might be broadly grouped as: Competitive, Legislative, and Financial.

- **Competitive Risks**

The Company's financial performance is subject to variation where some of its principal sponsors pay bonuses in respect to results achieved on track. Such results also combine to affect a proportion of the Company's income from prize money in the following season, as well as generally impacting on the Company's ability to generate sponsorships in the future. The Company performs regular financial reviews to ensure they have sufficient financial resources to meet liabilities as they fall due.

- **Legislative Risks**

As a competitor in the FIA Formula One World Championship, the Team is subject to the International Sporting Code, the current F1 Technical, Financial and Sporting Regulations, and the provisions laid out in the 2021 Concorde Agreement or such similar agreements. The Company works with its employees, agents and advisors, and also the governing body to ensure its compliance.

- **Financial Risks**

The Company uses loans, cash, and trade payables and receivables directly in the course of its on-going operations. The Company seeks to minimise exposure to exchange risk through matching currency assets and expenditure to income and borrowings.

On behalf of the board

Duncan Minto

Director

21st March 2025

DIRECTORS' REPORT

The directors present their annual report and the audited financial statements for the year ended 31 December 2024.

The principal activities and associated risks have been discussed in the strategic report.

DIVIDENDS AND TRANSFERS TO RESERVES

The directors do not recommend the payment of a dividend (2023: £nil). The loss for the year of £14.6 million (2023: £7.8 million profit) has been added to the deficit on the profit and loss account.

RESEARCH AND DEVELOPMENT

Information relating to research and development expenditure on racing cars is given in note 1 to the financial statements.

DIRECTORS

The following served as directors during the year:

D Minto
B Famin (resigned 30th July 2024)
A Scheiner
P Krief
M Smith
C Lorenzi (appointed 30th September 2024)

CHARITABLE DONATIONS

The Company made £50,150 (2023: £12,000) charitable donations to a national charity during the period.

POLITICAL DONATIONS

The Company made £nil (2023: £nil) political donations during the period.

EMPLOYEES

We are dedicated to ensuring that applications for employment from individuals with disabilities are given full consideration, taking into account their unique skills and abilities. If any of our team members become disabled, we make every effort to continue their employment with us and provide the necessary training and support.

Our policy is to ensure that training, career development, and promotion opportunities for employees with disabilities are as equitable as possible to those for employees without disabilities. We are committed to fostering an inclusive environment where all employees can thrive.

Additionally, we have systems in place to keep all employees informed about the company's performance, involve them in decision-making processes, and raise awareness about the factors influencing our success.

STREAMLINED ENERGY AND CARBON REPORTING

The 2019 UK Government Environmental Reporting Guidelines and the GHG Protocol Corporate Accounting and Reporting Standard (revised edition) were followed in producing this report. The 2024 UK Government GHG Conversion Factors for Company Reporting were used in emission calculations.

To arrive at the disclosed figures, the Company obtained relevant data from its various energy providers. The Company appointed a leading energy management company to independently assess Greenhouse Gas (GHG) emissions in accordance with relevant government guidelines.

DIRECTORS' REPORT**STREAMLINED ENERGY AND CARBON REPORTING (CONTINUED)**

The Company continued to address the environmental impact of its activities and continued to explore solutions to help reduce carbon emissions, minimise waste and increase energy efficiency. The Company maintained its ISO 14001 and its FIA 3 Star Environmental Accreditation which is defined as 'Best Practice' by the FIA.

The construction of an extension on an existing building at the Enstone facility was completed in December 2024, which was granted an EPC rating of A+. The installed capacity on this building is 217.5kW, with the total site installation being 326.5kW.

A two-year metering and monitoring project was also launched, with additional high- and low-voltage meters installed across the site. This initiative, continuing into 2025, is expected to enhance energy data visibility and support the identification of further efficiency opportunities.

Further energy-saving measures included completing air compression leak repairs, identified in a prior assessment, to reduce energy losses. Additionally, the Building Management System (BMS) was upgraded to optimise building operations and improve overall energy performance.

	2024		2023	
	Energy Consumption (kWh)	CO2e (tonnes)	Energy Consumption (kWh)	CO2e (tonnes)
Scope 1 – Natural Gas and Company Vehicle Fuel	3,009,110	673.9	3,222,222	729.8
Scope 2 – Electricity	15,882,397	3,288.5	14,797,696	3064.2
TOTAL	18,891,507	3,962.4	18,019,918	3,794.0
Headcount	995		948	
Intensity Ratio tCO2e/headcount	3.98		4.00	

The Company's total gross market-based emissions have increased since 2023. However, there has been an improvement in the Company's intensity ratio as a result of the initiatives described above.

DIRECTORS INDEMNITY

The Company has granted an indemnity to its directors against liability in respect of proceedings brought by third parties, subject to the conditions set out in section 234 of the Companies Act 2006. Such qualifying third-party indemnity provision remains in force as at the date of approval of the Directors' Report.

DISCLOSURE OF INFORMATION TO THE AUDITOR

The directors who held office at the date of approval of this directors' report confirm that, so far as they are each aware, there is no relevant audit information of which the Company's auditor is unaware; and each director has taken all the steps that they ought to have taken as a director to make themselves aware of any relevant audit information and to establish that the Company's auditor is aware of that information.

AUDITOR

KPMG LLP have expressed a willingness to continue in office as auditor and a resolution to reappoint them will be proposed at the forthcoming Annual General Meeting.

Director

STATEMENT OF DIRECTORS' RESPONSIBILITIES IN RESPECT OF THE STRATEGIC REPORT, THE DIRECTORS' REPORT AND THE FINANCIAL STATEMENTS

The directors are responsible for preparing the Strategic Report, the Directors' Report and the financial statements in accordance with applicable law and regulations.

Company law requires the directors to prepare financial statements for each financial year. Under that law they have elected to prepare the financial statements in accordance with UK accounting standards and applicable law (UK Generally Accepted Accounting Practice), including FRS 101 *Reduced Disclosure Framework*.

Under company law the directors must not approve the financial statements unless they are satisfied that they give a true and fair view of the state of affairs of the Company and of the profit or loss of the Company for that period. In preparing these financial statements, the directors are required to:

- select suitable accounting policies and then apply them consistently;
- make judgements and estimates that are reasonable and prudent;
- state whether applicable UK accounting standards have been followed, subject to any material departures disclosed and explained in the financial statements;
- assess the Company's ability to continue as a going concern, disclosing, as applicable, matters related to going concern; and
- use the going concern basis of accounting unless they either intend to liquidate the Company or to cease operations, or have no realistic alternative but to do so.

The directors are responsible for keeping adequate accounting records that are sufficient to show and explain the Company's transactions and disclose with reasonable accuracy at any time the financial position of the Company and enable them to ensure that the financial statements comply with the Companies Act 2006. They are responsible for such internal control as they determine is necessary to enable the preparation of financial statements that are free from material misstatement, whether due to fraud or error, and have general responsibility for taking such steps as are reasonably open to them to safeguard the assets of the Company and to prevent and detect fraud and other irregularities.

INDEPENDENT AUDITOR'S REPORT TO THE MEMBERS OF ALPINE RACING LIMITED

Opinion

We have audited the financial statements of Alpine Racing Limited ("the company") for the year ended 31 December 2024 which comprise the Profit and Loss Account and Other Comprehensive Income, Balance Sheet, Statement of Changes in Equity and related notes, including the accounting policies in note 1.

In our opinion the financial statements:

- give a true and fair view of the state of the company's affairs as at 31 December 2024 and of its loss for the year then ended;
- have been properly prepared in accordance with UK accounting standards, including FRS 101 *Reduced Disclosure Framework*; and
- have been prepared in accordance with the requirements of the Companies Act 2006.

Basis for opinion

We conducted our audit in accordance with International Standards on Auditing (UK) ("ISAs (UK)") and applicable law. Our responsibilities are described below. We have fulfilled our ethical responsibilities under, and are independent of the company in accordance with, UK ethical requirements including the FRC Ethical Standard. We believe that the audit evidence we have obtained is a sufficient and appropriate basis for our opinion.

Going concern

The directors have prepared the financial statements on the going concern basis as they do not intend to liquidate the company or to cease its operations, and as they have concluded that the company's financial position means that this is realistic. They have also concluded that there are no material uncertainties that could have cast significant doubt over its ability to continue as a going concern for at least a year from the date of approval of the financial statements ("the going concern period").

In our evaluation of the directors' conclusions, we considered the inherent risks to the company's business model and analysed how those risks might affect the company's financial resources or ability to continue operations over the going concern period.

Our conclusions based on this work:

- we consider that the directors' use of the going concern basis of accounting in the preparation of the financial statements is appropriate;
- we have not identified, and concur with the directors' assessment that there is not, a material uncertainty related to events or conditions that, individually or collectively, may cast significant doubt on the company's ability to continue as a going concern for the going concern period.

However, as we cannot predict all future events or conditions and as subsequent events may result in outcomes that are inconsistent with judgements that were reasonable at the time they were made, the above conclusions are not a guarantee that the company will continue in operation.

Fraud and breaches of laws and regulations – ability to detect

Identifying and responding to risks of material misstatement due to fraud

To identify risks of material misstatement due to fraud ("fraud risks") we assessed events or conditions that could indicate an incentive or pressure to commit fraud or provide an opportunity to commit fraud. Our risk assessment procedures included:

- Enquiring of directors and inspection of policy documentation as to the Company's high-level policies and procedures to prevent and detect fraud, including the company's channel for "whistleblowing", as well as whether they have knowledge of any actual, suspected or alleged fraud.
- Considering remuneration incentive schemes and performance targets for management.
- Using analytical procedures to identify any unusual or unexpected relationships.

We communicated identified fraud risks throughout the audit team and remained alert to any indications of fraud throughout the audit.

INDEPENDENT AUDITOR'S REPORT TO THE MEMBERS OF ALPINE RACING LIMITED (continued)

As required by auditing standards, and taking into account possible pressures to meet cost targets and our overall knowledge of the control environment, we perform procedures to address the risk of management override of controls, in particular the risk that management may be in a position to make inappropriate accounting entries. On this audit we do not believe there is a fraud risk related to revenue recognition because of a lack of incentives or pressures for revenue to be fraudulently recognised.

We did not identify any additional fraud risks.

We performed procedures including:

- Identifying journal entries and other adjustments to test based on risk criteria and comparing the identified entries to supporting documentation. These included revenue and cash journals posted to unusual accounts.

Identifying and responding to risks of material misstatement related to compliance with laws and regulations

We identified areas of laws and regulations that could reasonably be expected to have a material effect on the financial statements from our general commercial and sector experience, through discussion with the directors and other management (as required by auditing standards), and from inspection of the Company's regulatory and legal correspondence and discussed with the directors and other management the policies and procedures regarding compliance with laws and regulations.

We communicated identified laws and regulations throughout our team and remained alert to any indications of non-compliance throughout the audit.

The potential effect of these laws and regulations on the financial statements varies considerably.

Firstly, the Company is subject to laws and regulations that directly affect the financial statements including financial reporting legislation (including related companies legislation), distributable profits legislation and taxation legislation and we assessed the extent of compliance with these laws and regulations as part of our procedures on the related financial statement items.

Secondly, the Company is subject to many other laws and regulations where the consequences of non-compliance could have a material effect on amounts or disclosures in the financial statements, for instance through the imposition of fines or litigation or the loss of the Company's license to operate. We identified the following areas as those most likely to have such an effect: FIA Sporting, Technical and Financial Regulations, health and safety, anti-bribery, employment law, data protection and environmental legislation recognising the nature of the company's activities. Auditing standards limit the required audit procedures to identify non-compliance with these laws and regulations to enquiry of the directors and other management and inspection of regulatory and legal correspondence, if any. Therefore, if a breach of operational regulations is not disclosed to us or evident from relevant correspondence, an audit will not detect that breach.

Context of the ability of the audit to detect fraud or breaches of law or regulation

Owing to the inherent limitations of an audit, there is an unavoidable risk that we may not have detected some material misstatements in the financial statements, even though we have properly planned and performed our audit in accordance with auditing standards. For example, the further removed non-compliance with laws and regulations is from the events and transactions reflected in the financial statements, the less likely the inherently limited procedures required by auditing standards would identify it.

In addition, as with any audit, there remained a higher risk of non-detection of fraud, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal controls. Our audit procedures are designed to detect material misstatement. We are not responsible for preventing non-compliance or fraud and cannot be expected to detect non-compliance with all laws and regulations

Strategic report and directors' report

The directors are responsible for the strategic report and the directors' report. Our opinion on the financial statements does not cover those reports and we do not express an audit opinion thereon.

Our responsibility is to read the strategic report and the directors' report and, in doing so, consider whether, based on our financial statements audit work, the information therein is materially misstated or inconsistent with the financial statements or our audit knowledge. Based solely on that work:

INDEPENDENT AUDITOR'S REPORT TO THE MEMBERS OF ALPINE RACING LIMITED (continued)

Strategic report and directors' report (continued)

- we have not identified material misstatements in the strategic report and the directors' report;
- in our opinion the information given in those reports for the financial year is consistent with the financial statements; and
- in our opinion those reports have been prepared in accordance with the Companies Act 2006.

Matters on which we are required to report by exception

Under the Companies Act 2006 we are required to report to you if, in our opinion:

- adequate accounting records have not been kept, or returns adequate for our audit have not been received from branches not visited by us; or
- the financial statements are not in agreement with the accounting records and returns; or
- certain disclosures of directors' remuneration specified by law are not made; or
- we have not received all the information and explanations we require for our audit.

We have nothing to report in these respects.

Directors' responsibilities

As explained more fully in their statement set out on page 7, the directors are responsible for: the preparation of the financial statements and for being satisfied that they give a true and fair view; such internal control as they determine is necessary to enable the preparation of financial statements that are free from material misstatement, whether due to fraud or error; assessing the company's ability to continue as a going concern, disclosing, as applicable, matters related to going concern; and using the going concern basis of accounting unless they either intend to liquidate the company or to cease operations, or have no realistic alternative but to do so.

Auditor's responsibilities

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue our opinion in an auditor's report. Reasonable assurance is a high level of assurance, but does not guarantee that an audit conducted in accordance with ISAs (UK) will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of the financial statements.

A fuller description of our responsibilities is provided on the FRC's website at www.frc.org.uk/auditorsresponsibilities.

The purpose of our audit work and to whom we owe our responsibilities

This report is made solely to the company's members, as a body, in accordance with Chapter 3 of Part 16 of the Companies Act 2006. Our audit work has been undertaken so that we might state to the company's members those matters we are required to state to them in an auditor's report and for no other purpose. To the fullest extent permitted by law, we do not accept or assume responsibility to anyone other than the company and the company's members, as a body, for our audit work, for this report, or for the opinions we have formed.

ALPINE RACING LIMITED**NOTES TO THE FINANCIAL STATEMENTS****Year ended 31 December 2024****1. ACCOUNTING POLICIES**

Alpine Racing Limited is a private Company, incorporated, domiciled and registered in the UK. The registered number is 1806337. The registered address is Whiteways Technical Centre, Enstone, Oxfordshire, OX7 4EE.

These financial statements were prepared in accordance with Financial Reporting Standard 101 *Reduced Disclosure Framework* ("FRS 101").

In preparing these financial statements, the Company applies the recognition, measurement and disclosure requirements of UK-adopted international accounting standards ("UK-adopted IFRS") but makes amendments where necessary in order to comply with the Companies Act 2006 and has set out below where advantage of the FRS 101 disclosure exemptions has been taken.

The Company's ultimate parent undertaking, Renault S.A. includes the Company in its consolidated financial statements. The consolidated financial statements of Renault S.A. are prepared in accordance with International Financial Reporting Standards and are available to the public and may be obtained from Renault 13/15, quai Le Gallo – 92513 Boulogne-Billancourt Cedex France.

In these financial statements, the Company has applied the exemptions available under FRS 101 in respect of the following disclosures:

- a Cash Flow Statement and related disclosures;
- Certain disclosures regarding revenue;
- Comparative period reconciliations for tangible fixed assets, right of use assets and intangible assets.
- Disclosures in respect of capital management;
- The effects of new but not yet effective IFRSs;
- Disclosures in respect of the compensation of Key Management Personnel;
- Disclosures of transactions with a management entity that provides key management personnel services to the Company; and
- Disclosures required by IFRS 5 Non-current Assets Held for Sale and Discontinued Operations in respect of the cash flows of discontinued operations.
- Disclosures required by IAS 16 Property, Plant and Equipment in respect of the cost and the proceeds from the sale of items produced that are not an output of the company's ordinary activities.

As the consolidated financial statements of Renault S.A. include the equivalent disclosures, the Company has also taken the exemptions under FRS 101 available in respect of the following disclosures:

- IFRS 2 Share-Based Payments in respect of group settled share-based payments
- Certain disclosures required by IFRS 13 Fair Value Measurement and the disclosures required by IFRS 7 Financial Instrument Disclosures.
- Certain disclosures required by IAS 7 Statement of Cash Flows in respect of supplier finance arrangements.
- Certain disclosures required by IAS 12 Income Taxes in respect of Pillar Two income taxes.

Measurement convention

The financial statements are prepared on the historical cost basis except heritage vehicle assets, which are stated at their fair value. Non-current assets held for sale are stated at the lower of previous carrying amount and fair value less costs to sell.

Going concern

The financial statements have been prepared on a going concern basis, which the directors believe to be appropriate on the following basis.

ALPINE RACING LIMITED**NOTES TO THE FINANCIAL STATEMENTS****Year ended 31 December 2024****1. ACCOUNTING POLICIES (CONTINUED)**

During the year ended 31 December 2024, the Company experienced negative cashflow of £20.6 million, driven by a loss after tax of £14.6 million, and ended the year with cash reserves of £6.0 million.

To mitigate the risk of short-term fluctuations in working capital the Company opened an overdraft facility of £15.0 million with banking partner, HSBC. Other than this, the Company had no reliance on external or intergroup borrowings at any point during the year.

Based on the latest financial position of the Company, the directors have prepared forecasts for the period to 31 March 2026. This represents the directors best estimate of the forecasted financial performance and cash flow of the Company for the forecast period, and includes continued capital expenditure. Based on these forecasts, the directors are satisfied that the Company will have sufficient funds to meet its liabilities as they fall due for the period to 31 March 2026. The directors have also considered the effect of potential severe but plausible downside scenarios on future trading performance and have modelled such an impact on the forecasts for the period to 31 March 2026. In performing this sensitivity, the directors have assumed a reduction in revenues being generated from sponsorship income and prize money. If such a scenario were to arise, the directors remain satisfied that the Company will continue to have sufficient funds to ensure that all liabilities are met as they fall due.

Consequently, the directors have a reasonable expectation that the Company will have adequate facilities to continue in operational existence for a period of at least 12 months following the date of these financial statements. Given this, the financial statements of the Company have been prepared on a going concern basis.

Foreign currency

Transactions in foreign currencies are translated to the Company's functional currency at the foreign exchange rate ruling at the date of the transaction. Monetary assets and liabilities denominated in foreign currencies at the balance sheet date are retranslated to the functional currency at the foreign exchange rate ruling at that date. Non-monetary assets and liabilities that are measured in terms of historical cost in a foreign currency are translated using the exchange rate at the date of the transaction.

Financial instruments

Financial assets and financial liabilities are recognised when the entity becomes a party to the contractual provisions of the instrument.

Financial assets and financial liabilities are initially measured at fair value. Transaction costs that are directly attributable to the acquisition or issue of financial assets and financial liabilities (other than financial assets and financial liabilities at fair value through profit and loss) are added to or deducted from the fair value of the financial assets or financial liabilities, as appropriate, on initial recognition.

Trade and other debtors / creditors

All regular purchases or sales of financial assets are recognised and derecognised on a trade date basis

Trade and other debtors are recognised initially at transaction price less attributable transaction costs. Trade and other creditors are recognised initially at transaction price plus attributable transaction costs. Subsequent to initial recognition they are measured at amortised cost using the effective interest method or fair value, depending on the classification of the financial asset or liability less any credit impairment losses in the case of trade debtors.

Interest-bearing borrowings classified as basic financial instruments

Interest-bearing borrowings are recognised initially at the present value of future payments discounted at a market rate of interest. Subsequent to initial recognition, interest-bearing borrowings are stated at amortised cost using the effective interest method, less any impairment losses

ALPINE RACING LIMITED**NOTES TO THE FINANCIAL STATEMENTS**
Year ended 31 December 2024**1. ACCOUNTING POLICIES (CONTINUED)***Cash and cash equivalents*

Cash and cash equivalents comprise cash balances and call deposits.

Tangible fixed assets

Tangible fixed assets are stated at deemed cost or historic cost less accumulated depreciation and accumulated impairment losses. Certain items of tangible fixed assets that had been revalued to fair value on or prior to the date of transition to FRS 101, are measured on the basis of deemed cost, being the revalued amount at the date of that revaluation.

Where parts of an item of tangible fixed assets have different useful lives, they are accounted for as separate items of tangible fixed assets, for example land is treated separately from buildings.

The Company assesses at each reporting date whether tangible fixed assets are impaired.

Depreciation is charged to the profit and loss account on a straight-line basis over the estimated useful lives of each part of an item of tangible fixed assets. Land is not depreciated. The estimated useful lives are as follows:

Freehold Buildings	10-30 years
Motor vehicles	5-8 years
Plant and machinery	6-18 years
Furniture and fittings	3-10 years

Assets under construction are held separately within fixed assets and are not subject to depreciation until they are brought into use. When the asset is brought into use it is transferred to the relevant fixed asset category.

Depreciation methods, useful lives and residual values are reviewed if there is an indication of a significant change since last annual reporting date in the pattern by which the Company expects to consume an asset's future economic benefits.

Assets held for sale

A non-current asset (or a group of assets containing a non-current asset (a disposal group)) is classified as held for sale if its carrying amount will be recovered principally through sale rather than through continuing use, it is available for immediate sale and sale is highly probable within one year.

On initial classification as held for sale, non-current assets and disposal groups are measured at the lower of previous carrying amount and fair value less costs to sell with any adjustments taken to profit or loss. The same applies to gains and losses on subsequent remeasurement although gains are not recognised in excess of any cumulative impairment loss. Tangible fixed assets once classified as held for sale or distribution are not depreciated.

Intangible assets

Intangible assets that are acquired by the Company are stated at cost less accumulated amortisation and less accumulated impairment losses.

Amortisation is charged to the profit and loss account on a straight-line basis over the estimated useful lives of intangible assets from the date they are available for use. The estimated useful lives are as follows:

Software and other intangible assets	2-7 years
--------------------------------------	-----------

ALPINE RACING LIMITED**NOTES TO THE FINANCIAL STATEMENTS****Year ended 31 December 2024****1. ACCOUNTING POLICIES (CONTINUED)****Heritage assets**

The Company holds heritage assets, being its collection of historic cars. The carrying amounts of the Company's heritage assets are reviewed at each reporting date to determine whether there is any indication of impairment. If any such indication exists, then the asset's recoverable amount is estimated. The recoverable amount of an asset or cash-generating unit is the greater of its value in use and its fair value less costs to sell.

The historic cars have an indefinite life, and therefore, are not depreciated. The Company maintains these vehicles on a regular basis, charging the maintenance costs to the profit and loss account when incurred. The

Company may dispose of any cars from the collection subject to management approval, at such time the value would be removed from the balance sheet.

Research and development

Expenditure on research activities, primarily relating to the development of race cars, is recognised in the profit and loss account as an expense as incurred. The Company claims RDEC in respect of its research and development expenditure. The Company recognises the value of the RDEC gross of tax within its cost of sales in the year in which the underlying research and development expenditure was incurred. The gross RDEC receivable is recognised within accrued income.

Stocks

The Company has recognised as stocks, items that will be used in the production of next seasons racing cars. Stocks include raw materials and work in progress and are stated at the lower of cost and net realisable value after due regard for obsolete and slow-moving stocks. Manufactured stocks and work in progress include an appropriate share of directly attributable overhead based on normal operating capacity.

Impairment excluding stocks and deferred tax assets*Financial assets (including trade and other debtors)*

Financial assets are assessed at each reporting date to determine whether there is objective evidence that it is impaired. A financial asset is impaired if objective evidence indicates that a loss event has occurred after the initial recognition of the asset, and that the loss event had a negative effect on the estimated future cash flows of that asset that can be estimated reliably.

An impairment loss in respect of a financial asset measured at amortised cost is calculated as the difference between its carrying amount and the present value of the estimated future cash flows discounted at the asset's original effective interest rate. Impairment losses are recognised in profit or loss.

When a subsequent event causes the amount of impairment loss to decrease, the decrease in impairment loss is reversed through profit or loss.

Employee benefits*Defined contribution plans and other long-term employee benefits*

A defined contribution plan is a post-employment benefit plan under which the Company pays fixed contributions into a separate entity and will have no legal or constructive obligation to pay further amounts. Obligations for contributions to defined contribution pension plans are recognised as an expense in the profit and loss account in the periods during which services are rendered by employees.

ALPINE RACING LIMITED**NOTES TO THE FINANCIAL STATEMENTS**
Year ended 31 December 2024**1. ACCOUNTING POLICIES (CONTINUED)***Termination benefits*

Termination benefits are recognised as an expense when the Company is demonstrably committed, without realistic possibility of withdrawal, to a formal detailed plan to either terminate employment before the normal retirement date, or to provide termination benefits as a result of an offer made to encourage voluntary redundancy. Termination benefits for voluntary redundancies are recognised as an expense if the Company has made an offer of voluntary redundancy, it is probable that the offer will be accepted, and the number of acceptances can be estimated reliably. If benefits are payable more than 12 months after the reporting date, then they are discounted to their present value.

Provisions

A provision is recognised in the balance sheet when the Company has a present legal or constructive obligation as a result of a past event, that can be reliably measured, and it is probable that an outflow of economic benefits will be required to settle the obligation. Provisions are determined by discounting the expected future cash flows at a pre-tax rate that reflects risks specific to the liability.

Turnover

Turnover principally comprises sponsorship income, prize money and other promotional income. Sponsorship receipts and promotional income are credited to the profit and loss account in line with the satisfaction of the relevant performance obligations and significant payment terms of the agreement. Prize money is credited to the profit and loss account in line with the year to which it relates.

In certain cases, the Company enters into agreements with suppliers whereby goods and services are received in exchange for various sponsorship and marketing activities. In such cases turnover is recorded at the fair value of the goods or services rendered.

The directors do not consider there to be more than one class of business or geographical segment and therefore no further analysis of results by class of business or geographical segment is presented.

Expenses*Interest receivable and interest payable*

Interest income and interest payable are recognised in profit or loss as they accrue, using the effective interest method.

Taxation

Tax on the profit or loss for the year comprises current and deferred tax. Tax is recognised in the profit and loss account except to the extent that it relates to items recognised directly in equity or other comprehensive income, in which case it is recognised directly in equity or other comprehensive income.

Current tax is the expected tax payable or receivable on the taxable income or loss for the year, using tax rates enacted or substantively enacted at the balance sheet date, and any adjustment to tax payable in respect of previous years.

Deferred tax is provided on timing differences which arise from the inclusion of income and expenses in tax assessments in periods different from those in which they are recognised in the financial statements. Timing differences are not provided for differences between accumulated depreciation and tax allowances for the cost of a fixed asset if and when all conditions for retaining the tax allowances have been met.

Deferred tax is measured at the tax rate that is expected to apply to the reversal of the related difference, using tax rates enacted or substantively enacted at the balance sheet date. Deferred tax balances are not discounted.

Unrelieved tax losses and other deferred tax assets are recognised only to the extent that it is probable that they will be recovered against the reversal of deferred tax liabilities or other future taxable profits.

ALPINE RACING LIMITED**NOTES TO THE FINANCIAL STATEMENTS**
Year ended 31 December 2024**1. ACCOUNTING POLICIES (CONTINUED)****Accounting estimates and judgments**

The preparation of financial statements requires management to make judgements, estimates and assumptions that affect the amounts reported for assets and liabilities as at the balance sheet date and the amounts reported for revenues and expenses during the period. However, the nature of estimation means that actual outcomes could differ from those estimates. The directors do not consider there to be any judgements or estimates in relation to these financial statements that have a significant risk of causing a material adjustment to the carrying amount of assets and liabilities within the next financial year.

Leases

At the inception of a contract, the Company assesses whether a contract is, or contains, a lease. A contract is, or contains, a lease if the contract conveys the right to control the use of an identified asset for a period of time in exchange for consideration.

As a lessee

At the contract's commencement date, a lessee recognises an asset related to the right of use, and a financial liability that represents the lease obligation. The right-of-use asset is amortised over the term of the lease. The lease liability is initially recognised at the present value of lease payments over the expected term of the lease. The discount is unwound using the implicit interest rate of the lease agreement if it can be readily determined, or at the incremental borrowing rate otherwise.

The term of the lease is the non-cancellable period of a lease contract during which the lessee has the right to use the leased asset, extended by any renewal options the Company is reasonably certain to exercise.

Lease payments included in the measurement of the lease liability comprise the following:

- fixed payments, including in-substance fixed payments;
- the exercise price under a purchase option that the Company is reasonably certain to exercise,
- lease payments in an optional renewal period if the Company is reasonably certain to exercise an extension option, and
- penalties for early termination of a lease unless the Company is reasonably certain not to terminate early.

The Company has elected not to recognise right-of-use assets and lease liabilities for lease of low-value assets and short-term leases. The Company recognises the lease payments associated with these leases as an expense on a straight-line basis over the lease term.

As a lessor

The Company does not currently act as a lessor in any capacity.

ALPINE RACING LIMITED**NOTES TO THE FINANCIAL STATEMENTS**
Year ended 31 December 2024**2. OPERATING LOSS/PROFIT**

Balance as at 31 December 2024	496	760	6,575	349	8,180
Net book value as at 31 December 2024	625	2,172	7,080	2,570	12,447
Net book value as at 31 December 2023	318	1,823	6,307	70	8,518

ALPINE RACING LIMITED**NOTES TO THE FINANCIAL STATEMENTS****Year ended 31 December 2024****10. HERITAGE ASSETS***Valuation*

	Historic Cars £000
At 1 January 2024	3,694
At 31 December 2024	<u><u>3,694</u></u>

Five-year financial summary of heritage asset transactions:

	2024 £000	2023 £000	2022 £000	2021 £000	2020 £000
Additions	-	-	72	122	-
Disposals	-	-	-	(450)	(20)
	<u> </u>	<u> </u>	<u> </u>	<u> </u>	<u> </u>
Total	<u><u>-</u></u>	<u><u>-</u></u>	<u><u>72</u></u>	<u><u>(328)</u></u>	<u><u>(20)</u></u>

These assets are held on the balance sheet at fair value and are formally re-valued every five years. The assets were valued independently as at 30 September 2020 by T.J. Madden MRICS of Wyles Hardy & Co. Ltd. No material difference was identified and therefore, the financial statements were not updated.

During the year, management had a portion of the assets valued by RM Sotheby's Ltd in order to assess the active market for the assets. There was no evidence to suggest the carrying values at 31 December 2024 require impairment, nor was there sufficient evidence to support a write up.

11. STOCKS

	2024 £000	2023 £000
Raw materials and work in progress	<u><u>20,063</u></u>	<u><u>15,776</u></u>

The difference between the purchase price of stocks and their replacement cost is not material. Raw materials, consumables and changes in finished goods and work in progress recognised as cost of sales in the year amounted to £36,508,000 (2023: £33,706,000).

12. DEBTORS: AMOUNTS FALLING DUE WITHIN ONE YEAR

Net increase/decrease to shareholders' funds/(deficit)	<u>(14,625)</u>	<u>133,135</u>
Opening shareholders' deficit	<u>132,492</u>	<u>(643)</u>
Closing shareholders' funds/(deficit)	<u><u>117,867</u></u>	<u><u>132,492</u></u>

On 17 December 2015, 90,901,990 shares at £1 each were issued in order to capitalise the outstanding liabilities under the intercompany loan. Further intercompany debts were waived, this value (£42,154,000) is shown as capital contribution reserves.

On 8 September 2023, 26,525,700 shares at £3.689831 each were issued to be purchased by new investor Forest Intermediate Holdings.

On 15 December 2023, 7,381,064 shares at £3.726827 each were issued to be purchased by new investor Forest Intermediate Holdings.

21. FINANCIAL INSTRUMENTS

The Company has taken an exemption from the requirement to prepare a financial instruments note on the grounds that a parent undertaking includes the Company in its own published consolidated financial statements. The amounts owed by group undertakings have not been included within the consolidated financial statements and have been considered below.

Amounts owed by and to group undertakings

The fair value of amounts owed by and to group undertakings are estimated as the present value of future cash flows, discounted at the market rate of interest at the balance sheet date if the effect is material.

Management believe there are no risks arising from these financial instruments on the grounds that intercompany balances are payable on demand and interest is charged to group undertakings. While the intercompany loan is interest bearing, and repayable on a 3 month rolling basis, this is in line with a signed agreement. The Board reviews and agrees policies for managing these risks. There have been no substantive changes in the Company's exposure to financial instrument risks or its objectives, policies and processes for managing and measuring those risks during the periods in this report unless otherwise stated.

ALPINE RACING LIMITED**NOTES TO THE FINANCIAL STATEMENTS**
Year ended 31 December 2024**21. FINANCIAL INSTRUMENTS (CONTINUED)**

	Level	Carrying amount 2024 £000	Fair value 2024 £000	Carrying amount 2023 £000	Fair value 2023 £000

Total financial liabilities measured at amortised cost		19,743	19,743	18,219	18,219

Fair value hierarchy

IFRS 7 requires fair value measurements to be recognised using a fair value hierarchy that reflects the significance of the inputs used in the value measurements:

Level 1 – inputs are quoted prices in active markets.

Level 2 – a valuation that uses observable inputs for the asset or liability other than quoted prices in active markets.

Level 3 – a valuation using unobservable inputs, i.e., a valuation technique.

There were no transfers between levels throughout the periods under review.

22. LEASES*Right-of-use assets*
